

Programs At A Glance: Washington

The Emily Program offers a continuum of treatment options for children, adolescents, and adults.

The Emily Program
The eating disorder specialists

Outpatient

Outpatient Programs

For individuals in need of non-intensive eating disorder treatment

Children and Adolescents

- Personalized treatment plan, including individual and/or family therapy, nutrition, and medical services as needed.
- Family-Based Therapy (FBT) from trained providers

Adults

- Personalized treatment plan, including individual and/or family therapy, nutrition, and medical services as needed.
- Family and support people involved in treatment whenever possible
- Multiple group therapy options available

Intensive

Intensive Outpatient Programs (IOP)

For individuals in need of a higher level of care that includes more structure and support.

Children and Adolescents

- Frequency: 4 days/week; 3 hours/day
- Focused therapeutic group intervention for clients and families
- Therapeutic meals
- Weekly family participation to enhance development of recovery and relapse prevention skills

Adults

- Frequency: 4 days/week; 3 hours/day
- Group-based intervention provides enhanced therapeutic support and symptom interruption
- Therapeutic meals
- Emphasis on recovery and relapse prevention skills

Partial Hospitalization Programs (PHP)

For individuals stepping out of residential care or in need of more structure/support than IOP provides.

- Frequency: 5 days/week; 6 hours/day, plus school hours
- Structured therapeutic meals and group therapy
- Regular family participation to enhance development of coping and recovery skills
- Psychiatric assessment, medication management, and medical monitoring
- Integrated school services coordinated with client's home school

- Frequency: 5 days/week; 7 hours/day
- Structured therapeutic meals, behavioral exposure groups, and experiential challenges
- Group therapy for development of emotion regulation, behavior change, and relapse prevention skills
- Psychiatric assessment, medication management, and medical monitoring
- Lodging accommodations available for Seattle and Spokane programs

Residential

Residential Programs

Adult treatment in Seattle for individuals who need 24/7 supervision and care.

Children and Adolescents

- Adolescent residential available in Minnesota

Adults

- Frequency: 24 hours per day/7 days per week
- Licensed 16-bed facility for males and females, 18+
- May serve as an alternative to hospitalization
- 24/7 nursing, monitoring, and support
- Intensive group and individual intervention addressing medical, psychological, and nutritional needs
- Family involvement is strongly encouraged

Optimal length of stay at each level of care includes achieving adequate symptom management, nutritional rehabilitation, and recovery of weight and health parameters.
